

UNCORKING ITALY

ONE GLASS AT A TIME

WHO WE ARE

P.O.T.A. – Promoting Original Taste Abroad is more than just an Italian wine distributor in Cyprus.

We are ambassadors of a unique heritage, selecting artisanal wines that tell the story of winemakers and their lands.

"Uncorking Italy, one glass at a time"

We bring the authenticity of Italian wine to Cyprus, offering selections that honor tradition and the deep connection to the land.

OUR MISSION

We Don't Follow Trends; We Respect Traditions.

Give voice to the Italian producers, who preserve the authenticity of **native grape varieties** and bringing wines of character and identity.

Each bottle we select is a journey into the heart of its origin. Opening a wine means **Uncorking Italy, One Glass At a Time.**

THE CATALOGUE

This catalogue is an invitation to explore Italy's finest wines, curated for sommeliers, restaurateurs, and wine enthusiasts.

Artisanal Wines - A carefully selected range that embodies the best of Italian winemaking tradition.

The Stories Behind the Wines - Meet the people behind each bottle, their craftsmanship, and their philosophy.

Identity & Terroir - Every wine reflects the place it comes from and the passion of its producer.

DESCRIPTION

A region with a diverse landscape, featuring mountains, rolling hills, and large lakes (Garda, Iseo, Como), which significantly impact the climate. The lakes help moderate temperatures, creating a temperate environment ideal for cultivation. The Alps shield the region from cold northern currents, while the hills provide excellent sun exposure. The calcareous and clay-rich soils offer exceptional agricultural potential.

CONTI THUN

CONTI THUN

The elegance of rosé among the hills of Garda Lake

Location
Garda Lake

Hectars
11

Among the gentle hills of Valtènesi, where Lake Garda bestows an ideal microclimate, Conti Thun has elevated the most refined expression of rosé. The winery seamlessly blends tradition with contemporary sensibility, crafting wines that embody the territory with freshness, balance, and elegance. Conti Thun is more than just a winery it is a place of sharing, where rosé becomes the expression of a sophisticated and harmonious lifestyle, perfectly in tune with the beauty of Lake Garda.

FACCINELLI LUCA

FACCINELLI LUCA

Where the Vineyards Defy Gravity – The Essence of Valtellina

Location

Valtellina

Hectars

4

At the highest reaches of the Grumello subzone, Luca Faccinelli's vineyards cling to the mountainsides with slopes reaching a staggering 70% incline a true testament to heroic viticulture. Here, Nebbiolo finds its most extreme expression. These vines, shaped by the intense Alpine climate and dramatic day-night temperature shifts, absorb the purest essence of Valtellina's rugged landscape, yielding wines of extraordinary elegance and depth. More than a winery, this is a place where man and mountain coexist in a delicate balance, crafting wines that embody both the strength of tradition and the poetry of the extreme.

DESCRIPTION

A region of rolling hills, rugged mountains, and a long Adriatic coastline, Marche offers a perfect balance between maritime and inland influences. The Apennines shield the region from cold northern winds, while the Adriatic Sea moderates temperatures, creating a unique microclimate. The inland hills allow for excellent sun exposure and natural ventilation. The region's diverse geology, ranging from calcareous and clay-rich soils to sandy and alluvial formations, contributes to the richness of its agricultural landscape.

FATTORIA NANNI

FATTORIA NANNI

The Purest Breath of Verdicchio

Location
Castelli di Jesi

Hectars
8,5

Nestled among the gentle hills of the Marche region, Fattoria Nanni represents the purest connection between man and nature. With an organic and land-respecting viticulture, the winery preserves Verdicchio dei Castelli di Jesi in its most authentic essence. The sea breezes and altitude give the wines an unmistakable freshness, while the clay and limestone soil provide structure and elegance. Here, tradition merges with innovation to produce wines with a distinctive personality, a faithful expression of a unique territory.

VIGNAMATO

The Timeless Soul of Verdicchio

Location

Castelli di Jesi

Hectars

25

In the heart of the Marche region, among the sun-kissed hills of San Paolo di Jesi, Vignamato preserves the essence of Verdicchio dei Castelli di Jesi with passion and dedication. Generations of winemaking have shaped a philosophy rooted in respect for the land and its native vines, combining tradition with modern techniques. The interplay of sea breezes, rolling elevations, and mineral-rich soils creates wines of remarkable depth, freshness, and elegance. Each bottle is a testament to a territory where nature and craftsmanship merge, giving life to wines with a timeless soul.

DESCRIPTION

Surrounded by the Alps on three sides, Piedmont enjoys natural protection that creates a continental climate with significant temperature variations. Autumn is marked by the region's characteristic fog, which blankets the hills and contributes to a unique microclimate. The terrain is predominantly hilly, with diverse soils ranging from calcareous marl to sandy and clay-rich formations, offering an extraordinary geological variety.

POGGIO EZIO

POGGIO EZIO

Timorasso, the Rebirth of an Ancient Grape Variety

Location

Colli Tortonesi

Hectars

6

On the unspoiled hills of the Colli Tortonesi, Poggio Ezio carries out an ambitious mission: to revive Timorasso, a nearly extinct grape variety capable of revealing extraordinary character. On limestone soils and steep slopes, this variety expresses itself with vibrant minerality and an unexpected structure for a white wine. Crafted with artisanal care and aged for a long time, Poggio Ezio's Timorasso evolves over the years, revealing surprising aromatic complexity and a structure almost reminiscent of a red wine.

ROBERTO CROSIO

ROBERTO CROSIO

The Authentic Expression of Erbaluce

Location

Canavere

Hectars

10

Roberto Crosio carries on the Nebbiolo tradition, but it is with Erbaluce that he best expresses his vision of viticulture. This native grape variety, rare and precious, finds in his vineyards the perfect combination of acidity and structure. Crosio's Erbaluce is a tribute to the Piedmontese tradition, capable of capturing the freshness of the mountains and the depth of the land. Each bottle is a journey between past and future, between innovation and respect for the roots.

DESCRIPTION

Tuscany's defining feature is its gently rolling hills, covering 80% of the region. These elevations ensure perfect sun exposure and natural ventilation. The Mediterranean climate, milder along the coast and more continental inland, provides ideal temperature variations. The soil, rich in clay, sand, and rocky formations like galestro and alberese, enhances the diversity of agricultural production.

PODERE IL CASTELLACCIO

PODERE IL CASTELLACCIO

Authentic Tuscany, Beyond Time

Location

Bolgheri

Hectars

9

On the gentle hills of Castagneto Carducci, between the breath of the sea and the wind-swept land, Podere il Castellaccio is a journey into the most authentic Tuscany. Here, the vineyard is an archaeology of taste: Foglia Tonda, Pugnitello, and other forgotten varieties return to tell an ancient story, far from the spotlight. The iron-rich soil and Mediterranean climate give the wines an intense and vibrant texture, while artisanal care and meticulous winemaking preserve the pure character of the grapes. Every sip is a return to the origins, a bridge between past and future, in the heart of a timeless Tuscany.

DESCRIPTION

This region stands out for its high-altitude vineyards, ranging from 200 to 1,000 meters above sea level. The Alpine and continental climate is influenced by the wind, which keeps the air dry and creates strong temperature fluctuations between day and night. The Dolomites shield the region from cold currents, while volcanic, calcareous, and moraine-rich soils provide an ideal environment for high-quality cultivation.

DESCRIPTION

Veneto is a geographically diverse region, with fertile plains, volcanic hills, and pre-Alpine ranges. The climate is shaped by the Dolomites, which protect the area from cold northern winds, and the plains, which retain humidity and warmth. Lake Garda helps moderate temperatures, creating a particularly favorable microclimate in the surrounding areas. The soils vary from volcanic formations in the hills to alluvial deposits in the lower plains.
